

2022 RATES SCHEDULE

SERVICE CHARGE

Bills are generated on a monthly basis. The Service Charge applies regardless of the amount of water consumed. Service Charge is prorated if service is discontinued or established during the billing cycle. Charges continue in current customer's name until the District is notified of intent to discontinue service. To dispute a bill, please contact Billing at 831-475-8500 option 3. The Service Charge for each water meter is as follows:

Meter Size	Single Family Multifamily Residential Commercial	Irrigation/ Outdoor Use Meter Size:	Private Fire Protection Meter Size:

Bulk Water	\$50.56 per 1,000 gallons	

Water Demand Offset Charges

Applicants for new service must comply with the Water Demand Offset (WDO) program. This requires new development to offset two times the projected water demand by paying a WDO fee equivalent to \$55,000/acre-foot of offset. Applicants must first contact the District and present the proposed building plans. The District will calculate expected water demand based on the size and use of the new development and determine the offset requirement.
