

Environmental Review Process

Fall 2016

- **Initial Study**
 - Completed November 2016
 - Finding: Project may have a significant effect on the environment and an Environmental Impact Report (EIR) is required
- **Public Scoping Comment Period (35 days)**
 - Input from the public and interested and potentially affected stakeholders helps to identify the environmental topics to be analyzed in the EIR

Summer 2017

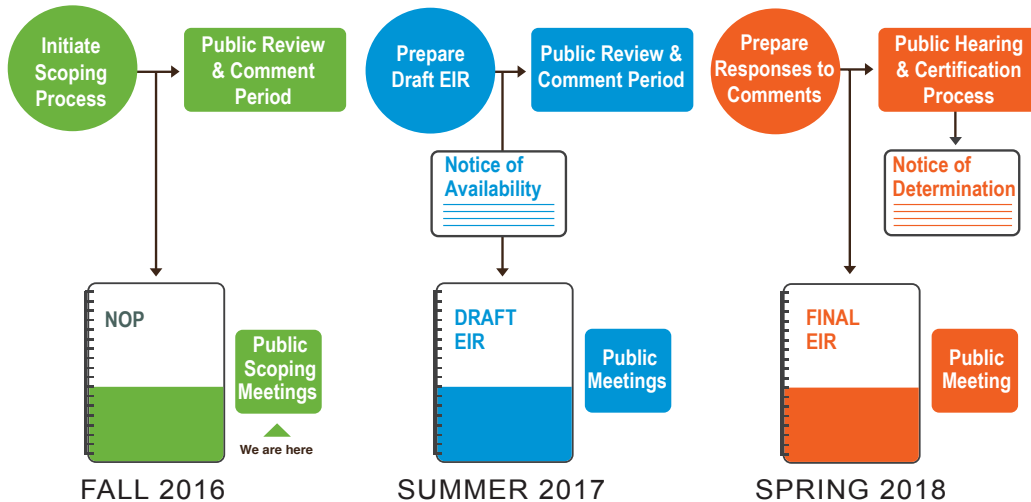

- **Draft EIR (Environmental Impact Report)**
 - Planned for release in Summer 2017
- **Public Review of Draft EIR and Comment Period (45 days)**
 - Notices mailed to interested parties
 - At least one public meeting
 - Newspaper advertisement inviting public comment

Summer 2018

- **Response to Comments/Final EIR**
 - Planned for release in Spring 2018

Environmental Impact Report (EIR) Process and Timeline

California Environmental Quality Act (CEQA) Process for EIR

During the 35-day Notice of Preparation (NOP) scoping period, Soquel Creek Water District is requesting your input on what issues the EIR should consider that are important to you and your organization.
